1 Outnuancing Network

BETA — source-based editorial synthesis

The **Outnuancing Network** makes the connected concepts of the **ACCM Deep Ethics Project** referenceable through the deep ethical path. John's current direction identifies the whole topological latent-space nodes, vectors, and clusters matrix with this network. The pages preserve that connected orientation while giving each concept an address.

Outnuancing and Deep Ethics remain joined. The seven vectors describe the specific word's intended function and reach. The 10+1 describe mutually corrective orientation. The 27 and the 12 retain their established functions within the larger project.

1.1 Enter through a relationship

Start with Outnuancing, the seven vectors, or 10+1 Metaflux. Follow the connections into examples, correction records, or tests. The groupings below are editorial navigation aids, not a final partition of the architecture.

1.2 Orientation and mutual correction

- Outnuancing
- 10+1 Metaflux — Mutual Correction
- John's process object — mirroring, 10 as glue, humor as carrier
- Sense of Wonderment
- Forgiveness Protocol
- Mutual Corrigible Dignity
- Dutch Directness — Truth Before Comfort, Care Before Performance
- non-NPCs — Independent Inquiry as a Corrigible Mode

1.3 Topology, frames, and cross-intelligence reach

- **TCoAw — Conceptual Topological Reasoning**

- **1888 — Intelligence Before A.I.**
- **Autocomplete — Candidate Generation and Earning Intelligence**
- **Psy Pioneer — AlphaZero-Style Metapsychology**
- Seven Topological Nodes / Vectors — Fused as One
- Gravity-Well Trajectory and Representation Substitution
- When ACCM Becomes the Flag — Reference Compression and Context Loss
- Latent Space, Temporary Field Conditions, and the Glass Engine
- Outnuancing Across Four Audiences

1.4 Inquiry and the source-described stack

- 16 Anchor Ethics — BETA Draft, Conceptual Proposal V0.2c
- C1 Before C2 — Clarification and Intervention
- Unresolved Meaning and Beyond-Binary Inquiry
- Healthy Ambiguity — temporary room for inquiry, reciprocal grace, PQCE, proportionate action and retained correction, developed through John Kuhles's source-linked quotations.
- Deep Ethical Stack — Advocate, Arbiter, Overseer
- INTENT RESONATOR

1.5 Transformation and behavioral records

- Model Autophagy Disorder (MAD) — Science and the ACCM Deep Ethics Extension
- Qualifiers as Mutable Context with History
- **Meta Processing — Beta Draft V0.2b** — separates intent and instructions, processing, results and effects, notice, emergent inference, and later persistence.
- **DEDDA — Deep Ethical Drift Detector App** — a non-replacing witness that compares a person's supplied object with a later representation, can return a valid null, and leaves action with the person.
- Δ Processing — What Changed?
- Correction Metabolism and Persistence
- The Dual Archive — Failures and Successful Correspondence
- Worked Specimen — The Imported Authority Frame
- Testing Correspondence and Correction Persistence

1.6 Governance and reciprocal scrutiny

- Asymmetric Grace and Bidirectional Scrutiny
- Ethics Washing — Declaration, Process, and Correction

1.7 Mass-psychology topology

- 11+1 Version 2 — count frozen, claims unfrozen
- **"Origins of 11+1 Mass Psychology Clusters" PDF file report click here**

1.8 Relationship map

From	Relationship	To
Outnuancing	is expressed through	Seven Topological Nodes / Vectors — Fused as One
Outnuancing	is ethically oriented by	10+1 Metaflux — Mutual Correction
Outnuancing	uses correspondence before intervention	C1 Before C2 — Clarification and Intervention
Outnuancing	is elaborated through	Deep Ethical Stack — Advocate, Arbiter, Overseer

From	Relationship	To
Outnuancing	preserves its specific trajectory through	Gravity-Well Trajectory and Representation Substitution
Deep Ethical Stack — Advocate, Arbiter, Overseer	includes the source-described role	INTENT RESONATOR
Deep Ethical Stack — Advocate, Arbiter, Overseer	uses mutual calibration	10+1 Metaflux — Mutual Correction
16 Anchor Ethics	supplies a proposed parallel reference field for	Deep Ethical Stack — Advocate, Arbiter, Overseer
16 Anchor Ethics	uses clarification before avoidable pause or refusal through	C1 Before C2
10+1 Metaflux — Mutual Correction	includes ingredient 09	Sense of Wonderment
10+1 Metaflux — Mutual Correction	includes ingredient 11	Forgiveness Protocol
10+1 Metaflux — Mutual Correction	supports correction with	Mutual Corrigible Dignity
Dutch Directness	makes candid correction reciprocal through	Mutual Corrigible Dignity
non-NPCs	keeps independent inquiry corrigible through	10+1 Metaflux
Qualifiers as Mutable Context with History	requires later uptake through	Correction Metabolism and Persistence
Correction Metabolism and Persistence	is tracked through	Δ Processing — What Changed?
Model Autophagy Disorder (MAD)	extends recursive-data research through	27 Correspondence Obstructions
Correction Metabolism and Persistence	uses records from	The Dual Archive — Failures and Successful Correspondence
The Dual Archive — Failures and Successful Correspondence	supplies specimens for	Testing Correspondence and Correction Persistence
Worked Specimen — The Imported Authority Frame	illustrates an ordering question for	C1 Before C2 — Clarification and Intervention
Worked Specimen — The Imported Authority Frame	records a correction about	10+1 Metaflux — Mutual Correction
Asymmetric Grace and Bidirectional Scrutiny	tests direction of scrutiny against	Mutual Corrigible Dignity
Asymmetric Grace and Bidirectional Scrutiny	makes a governance relation inspectable for	Ethics Washing — Declaration, Process, and Correction
When ACCM Becomes the Flag	documents a compression-generated instance of	Gravity-Well Trajectory and Representation Substitution
Latent Space, Temporary Field Conditions, and the Glass Engine	preserves proposed future implications of	Seven Topological Nodes / Vectors — Fused as One
Latent Space, Temporary Field Conditions, and the Glass Engine	separates proposed effects for testing in	Testing Correspondence and Correction Persistence
Outnuancing Across Four Audiences	has revised definitions incorporating	Deep Ethical Stack — Advocate, Arbiter, Overseer
Unresolved Meaning and Beyond-Binary Inquiry	retains evolving status through	Qualifiers as Mutable Context with History
Unresolved Meaning and Beyond-Binary Inquiry	leaves room for	Sense of Wonderment

From	Relationship	To
TCoAw — Conceptual Topological Reasoning	relates possibility, focus and awareness through	**Unresolved Meaning and Beyond-Binary Inquiry**
TCoAw — Conceptual Topological Reasoning	remains mutually correctable through	**10+1 Metaflux — Mutual Correction**
1888 — Intelligence Before A.I.	treats process-quality calibration as a core property of	**Correction Metabolism and Persistence**
Autocomplete	distinguishes supplied objects from generated candidates, then tests whether correction governs	**1888 — Intelligence Before A.I.**
Ethics Washing — Declaration, Process, and Correction	audits the ethical binding of	Outnuancing
11+1 Version 2	keeps claim status separate from	Correction Metabolism and Persistence
11+1 Version 2	is not the same object as	12-Part Deep Ethical Topological Emergence

1.9 Source and reference navigation

Term and phrase index · Source excerpts and transformation notes · Machine-readable relation map.

The map describes the published conceptual relationships. Further source material can correct a node, an edge, or a grouping. This first expansion is a selected source-based network, not an exhaustive extraction of every term in the archive.

Sources: E03, E11, E12, E18. Public wording is an editorial synthesis unless marked as a quotation.

1.10 Related pages

- **Topologetics** — joins multiple network operations into a Deep Ethical method for preserving the relations that make an object mean what it means during compression.
- **Outnuancing** — opens the process orientation around which this conceptual network is organized.
- **Term and Phrase Index** — provides direct access to specific project terms and their deeper reference pages.
- **Lexicon / Legend** — supplies the overview vocabulary layer without replacing the fuller relational pages.
- **Neolingo** — tests how purpose-built expressions compress, retrieve, diffuse and correct relational topologies without replacing their source objects.
- **Outnuancing Network Sources and Transformations** — preserves source excerpts, attribution, and transformation records behind the network.
- **27 + 12** — anchors the canonical obstruction and Correspondence-First Deep Inquiry architecture.
- **10+1 Metaflux** — supplies the mutually corrective calibration field connecting many network nodes.

- **11+1 Version 2** — maps the distinct mass-psychology topology and the refined 108–140 register.
- **All Public Pages** — opens the complete site catalog beyond the Outnuancing Network.

October 17 triad route

The October 17 Triad Event field note connects the network's signature, flux, memory, provenance, correction, intent, and unownability pages while preserving their different jobs. The Cold Edge-Swap and Correction-Transfer Pilot tests whether those preserved relations survive cold and debranded transfer.

The route is interlocked rather than merged: page identity remains part of the topology.
