Portable PDF edition — selectable text and live links
Canonical public page: https://deepethics.github.io/ACCM-Deep-Ethics-Project/REPORTS/
Exported from the public GitHub source on 2026-10-16. The linked page and repository history remain the correction path. Emoji are rendered as searchable text labels for PDF portability.

This full report follows the development of the ACCM Deep Ethics Project's eleven distortion clusters and the +1 correspondence-restoring field. It preserves the distinction between the original 1–107 architecture, the distributed 108–137 refinements, Item 111 as a cross-field guardrail, and Items 138–140 as operators that explicitly operationalize the +1.

The report also examines the correction history around representation drift, A.I. summarization, frame protection, source fidelity, asymmetric grace, outnuancing, correction metabolism, and the proposal for a swarm of mutually auditing Deep Ethical A.I.s. It includes the complete 140-item field, a cross-model correction timeline, a salvage map, proposed PsyBenchmark modules, high-signal passages, and a discussion of the Explorer as an anti-drift instrument.

1.3 Recent high-reach independent-media companion

Narcissism Expert Richard Grannon: Britain Is Being Emotionally Manipulated — andrew gold | heretics.. Published **19 April 2026**. YouTube displayed approximately **124,000 views** when checked on **9 October 2026**.

Independent-media lineage: Andrew Gold made and presented documentaries for the BBC and HBO before building Heretics as his own independent interview and writing platform. Andrew Gold biography · Heretics — About

Why it belongs here: The conversation proposes a population-scale emotional-manipulation account using psychological vocabulary. It is a useful test of causal evidence, national generalization, diagnostic language, audience resonance and self-application by host, guest and project.

On this page, test the video specifically against **Origins of 11+1 Mass Psychology Clusters**:

- Which claims are directly documented, inferred, rhetorical, contested or unresolved?
- What does the host or guest preserve, compress, omit or substitute—and does this page repeat any of those transformations?
- Which incentives, authority relations and affected parties remain outside the visible frame?
- What evidence or later outcome would correct the speaker, audience, platform or **ACCM Deep Ethics Project** reading?

Provisional selection. Reach makes the framing socially consequential; it does not settle the claims. The video can be replaced when a closer, stronger or more inspectable specimen appears.
